

**SAFETY & SECURITY
ASIA SERIES PRESENTS:**

POST-COVID SECURITY THREATS: CYBER OR CONVENTIONAL?

Friday, 30 April 2021 • 4.00PM - 5.30PM • GMT+8

Co-Organisers

Sponsor

Join us on Friday, 30 April 2021 at 4.00PM GMT+ 8 to hear from industry leaders how the security climate has changed post-Covid, and how you can navigate and circumvent the threats posed by cyber and conventional sources.

Maintaining a safe and secure environment in a post-Covid world is all about protecting lives and properties in a new environment.

As our lives and livelihoods are increasingly entwined with technology in the wake of Covid, we need to be aware of the various cyber and conventional threats that technology poses and can succumb to in order to make the necessary changes and continue operating in a safe environment.

In collaboration with ASIS International (Singapore Chapter) and our sponsor, Security Risk, we are delighted to present "***Post-Covid Security Threats: Cyber or Conventional?***". This is a part of a specially curated webinar series leading up to [Safety & Security Asia 2021 \(SSA\)](#). This webinar is a must-attend for security and management professionals.

PROGRAMME

4.00PM

Opening Remarks by Moderator & Infographic Video

Anthony Lee, CPP, PSP, CBCP

Regional Safety & Security Advisor
Asia Pacific, British Council

KEYNOTE

4.05PM

Impact of Covid-19 on Cyber and Physical Security

Danny Chan

Senior Regional Vice President
ASIS International Asia Pacific

Synopsis:

Covid-19 has been arguably one of the biggest catalysts of change for all of us in recent years. But as many of us pivot to telecommuting, web conferencing platforms and even online shopping, have we inadvertently changed our security risk profile?

SPEAKERS

4.25PM

Adapting Physical Security in the Post-Covid World

Ian Stewart

CEO
Security Risk

Synopsis:

Emerging from post covid, the security industry is rapidly adapting to make changes to their operations. In this session, Ian will discuss the key changes in physical security operations moving forward. He will highlight how technology has played an important role in running security operations during the pandemic and the importance of remote security operations in such an environment. All to ensure you continue to improve the service delivery standard to your clients.

4.40PM

Crime Prevention Strategies Post-Pandemic

Shamir Rajadurai

Crime Safety Specialist

Crime Prevention Through Environmental Design (CPTED)

Synopsis:

During the pandemic we saw a decrease in street crime but a massive increase in Cyber-crime. Now that things are getting better street crime has started to rise. To help reduce victimization adopting security architecture combined with technology is a strategy that will be effective only if it is implemented properly.

In this session we will be introduced to adopting CPTED and technology in combating post covid security threats, how proper design and effective use of the build environment contributes to reducing the risk and incidence of crime. The session will also highlight successful designs which have helped reduce crime.

4.55PM - Q&A Session

5.25PM - Introduction to Safety & Security Asia 2021

KEYNOTE

Danny Chan

Senior Regional Vice President
ASIS International Asia Pacific

Upon leaving the Army as a Captain with the Singapore Special Forces, Danny proceeded to develop, advise and train numerous law enforcement agencies and military tactical units around the world with Britain Defence before serving Fortune 500 companies, Government and non-governmental organisations with Olive Group in austere environments in four continents.

He went on to become Director of Global Risk Assessments at Worldaware International Inc. which provided operational intelligence and enterprise risk management solutions to 900 of the Fortune 2000 companies, numerous government and non-governmental agencies. Danny was being regularly interviewed on major news networks like Channel News Asia and The Straits Times.

Danny then went on to become Regional Director, Global Risk Management for Marriott International Inc. where he handled numerous crises, spanning manmade ones like terrorism attacks, to natural disasters like earthquakes to major events like the Olympic Games. He was also Senior Consultant, Security Monitoring and Response, Asia Pacific, Middle East and Africa for Mastercard International Inc. before transiting into his current role of Regional Security Officer for Asia Pacific.

Danny currently sits on the advisory council of Harvard Business Review, is Senior Regional Vice President of Region 13 for ASIS International Asia Pacific, helps to lead the Asia Analyst Round Table and is a board member of the Certified Counter Terrorism Professional Board.

In his free time, Danny volunteers as an Associate Mediator with Singapore Mediation Centre & Small Claims Tribunals of the Subordinate Courts of Singapore, and runs his own micro social initiative organisation, Making a Difference.

SPEAKERS

Ian Stewart

CEO

Security Risk

Ian Stewart, CEO of Security Risk, has a wealth of experience in international executive, strategic and operational roles across commercial and government sectors. In particular, Ian has spent:

- Close to 10 years working in risk management, including 6 years at a risk management and security company, providing boutique risk solutions in one of the most demanding operating environments in the world;
- 20 years in the Australian Army; and
- 2 years in the Australian Police Force

Ian has an innate understanding of his clients' commercial business drivers as well as the logistics and specific demands involved in providing security operations.

It is this experience and understanding that drives his vision of using technology to keep people safe; security companies and in-house security teams with an innovative, effective, and cost-effective solution to the management of their operational needs.

Shamir Rajadurai

Crime Safety Specialist

Crime Prevention Through Environmental Design (CPTED)

Shamir Rajadurai has a Masters of Criminal Justice from University Malaysia (UM) and is also a Certified CPTED Practitioner from Florida Atlantic University (FAU) and the International CPTED Association. He is also the Director at the International CPTED Association. He is a crime safety specialist that focuses on simple and effective crime prevention methods to help reduce the risk of you and your loved ones from becoming victims. Shamir has worked with individuals, companies, organisations and several Municipal Councils.

Property safety is one of the top priorities for potential buyers as they would like to protect themselves and their assets. By combining the concepts of Crime Prevention Through Environmental Design (CPTED) and understanding the Reality of Crime, Shamir is able to analyse potential risks and provide very effective crime prevention strategies.

Shamir was also a Panel Judge on Star Property Awards 2017/2018. He is also the Co-Producer of the online crime prevention mini series, *kuasa wanita di sini* and *Crime, Crooks & Criminology* which has garnered millions of views. He is an international speaker and has been featured as a speaker in FIABCI and Propwall, amongst others. Shamir has also been featured in various TV and radio talk shows, as well as newspapers and magazines both locally and internationally.
